

The mission of AMG Insurance International - ***entrepreneurial servitude***.

This year, we are helping a 501 (c)(3) nonprofit called ***Hope Fleet International, Inc.*** For every complete application for insurance received from the Annapolis Boat Shows or from Cruisers University, we have agreed to donate \$10 to Hope Fleet International.

The mission of Hope Fleet International is to deliver (including through CRUISERS like you) essential supplies, services and hope to the children who need it most. Local partners in the Caribbean and Bahamas include local churches, ministries, schools, orphanages and humanitarian outreaches. The “hand-up” approach to build (and rebuild) communities from within includes tackling immediate needs. It also involves working together to solve deep-rooted issues and to create long-lasting solutions.

As your bucket list may include some of the most breathtaking views, have you considered the hurting communities just around the corner from these views? Consider getting involved in the three focus areas of Hope Fleet in a more practical way:

Child Wellbeing

Community Development

Disaster Response

Consider signing up to get involved. Register your vessel at www.hopefleet.org/ocean-reach.com. When you're ready to depart, Hope Fleet will not only help you find trusted humanitarian projects for your time and skills to be utilized to make a difference; they will assist you with resources along the way.

These efforts go beyond the faith-based organization of Hope Fleet International. The marine community as a whole demonstrates unparalleled compassion and problem-solving skills. When we join together, we can make a tangible difference in a life, in a community, in our world.

**There is a \$19 (pass-through fee) for background checks every 2 yrs due to the focus on meeting children's needs.* For more information, please visit hopefleet.org

Blessings,
